

Gigaset

E630A

The robust phone for the tough situations of every day life (IP65)

Key Features & Benefits:

- IP65 rated: resistant to shocks, dust and water
- Easy change between indoor and outdoor via profile key
- Support call signaling in loud surroundings - vibracall
- Brilliant HSP™ sound quality with volume control via side key
- Pocket torch function

Other Features:

- Answering machine with 59 minutes recording time
- Expandable up to 6 handsets
- Hands free talking with excellent sound quality – activated by a handsfree key
- Storage for up to 150 entries each
- Message centre lists outgoing, incoming and missed calls
- Eco DECT – uses up to 60% less energy

Technical Data:

Range*	:	50m Indoor 300m Outdoor
Frequency Bands	:	DECT 1881–1897 MHz
Number of Lines	:	1 line (PSTN)
Power Source	:	
Base Unit	:	AC Adaptor
Handset	:	Li-Ion rechargeable batteries
Dimensions (H X W X D)	:	
Base Unit	:	117 x 115 x 47mm
Handset	:	154 x 52 x 30mm
Weight	:	
Base Unit	:	224g
Handset	:	139g (incl. Batteries)
Charge & Talk Time (Handset)	:	
Talk Time	:	12 hours
Standby Time	:	250 Hours
Charge Time	:	< 6 hours

* May vary due to house/office conditions

INGRESS PROTECTION (IP) RATING

There is a wide range of applications that require special treatment to the motor and the various degrees of protection that are available are detailed below:-

Designation	First Numeral Protection against contact and ingress of foreign bodies	Second Numeral Protection against water.
IP44	Protection against contact with live or moving parts inside the enclosure by tools, wires, or such objects of thickness greater than 1mm. Protection against ingress of small solid foreign bodies (diameter greater than 1mm) excluding the ventilation openings (intake and discharge of external fans) and the drain hole of enclosed machine, which may have degree 2 protection.	Water splashed against the enclosure from any direction shall have no harmful effect
IP54		Water splashed against the machine from any direction shall have no harmful effect.
IP55	Complete protection against contact with live or moving parts inside the enclosure. Protection against harmful deposits of dust. The ingress of dust is not totally prevented, but cannot enter in an amount sufficient to interfere with satisfactory operation of the machine.	Water projected by a nozzle against the enclosure from any direction shall have no harmful effect.
IP56		Water from heavy seas or water projected from jets shall not enter the machine in any harmful quantity.
IP65	Complete protection against contact with live or moving parts inside the enclosure and against the ingress of dust.	Water projected by a nozzle against the machine from any direction shall have no harmful effect.
IP66	Complete protection against contact with live or moving parts inside the enclosure and against the ingress of dust.	Water from heavy seas or water projected from jets shall not enter the machine in any harmful quantity.
